**CHIEF MINISTER
MANIPUR**

MESSAGE

It is my pleasure to launch the official website of the Chief Minister, Manipur. The website will greatly enhance the transparency of the functioning of this government by communicating key decisions and policies of the government. Citizens will also get access to the latest news and important events related to the Office of the Chief Minister.

One of the key features of the website is "Manipur Connect" where citizens including students living outside the State can register themselves and raise issues and concerns related to education, racism, harassment and corruption, which will then be forwarded to the concerned authorities for quick resolution. Manipuri students studying outside the state should register in the website. Any student who unfortunately meets a serious accident will be covered up to Rs. 50,000 for medical expenses, and in the unfortunate event of the student succumbing to the injury, Rs. 2,00,000 will be given.

Another key feature of the website is the ability to link to the newly launched "Grievance Cell" which will provide a one-stop solution for citizens to lodge their grievances to the various departments, after which they can monitor the status/progress of their complaints/requests. This will not only increase the efficiency of grievance redressal by the officials but also provide transparency in the entire process of grievance redressal.

I truly believe the citizens of Manipur will appreciate and find the official website of the Chief Minister, Manipur useful. Your valuable feedbacks and thoughts on the betterment of the lives of the people in the state are always welcome.

11/2/18
(N. Biren Singh)
