MESSAGE

I would like to extend my best wishes to our students, who are appearing in this year's Class X and Class XII examinations being conducted by BSEM, COHSEM and CBSE.

These examinations usually serve as important steps towards shaping students' career and achieving their ambitions. At this critical phase, parents and teachers must guide the students to perform with ease and confidence.

From my side as well, I would like to appeal to our beloved students not to get stressed out but study with a calm mind.

Once again, I wish all the students the very best for the examinations and come out with flying colours.

(N. Biren Singh)
